*"One must maintain a little bit of summer,
even in the middle of winter."*

Dear Parents,

Greetings!

It seems like it was only yesterday that our tiny tots had joined the new academic year. Term 1 has come to an end and we are just a few days away from the summer break. The learning journey has been great so far and our children have shown great resilience throughout the term. The summer vacation is nearing and it's time to unwind and spend quality time with our loved ones. During the break, kindly make sure you engage them in activities that would help you build the bond between you and your child even stronger.

Here are a few ideas you could choose from:

- Go On A Picnic: There is nothing like packing a picnic and going outside to eat. You could look for picnic spots with good scenery to enjoy.
- Do Puzzles And Brain Teasers: You can find a book on puzzles for kids to puzzle their brains over. There are many brain teaser games available for kids to play online or just available in the market.
- Master A New Skill: Summer is one of the best times to learn a new skill. It could be sewing, hula-hooping, juggling, or anything.
- Painting a Rock or pebble collection is a hobby for many children. They can take it further by washing and painting them.

I hope you and your family have a lovely vacation and I can't wait to see my little ones fully charged after the summer break!

Thank you for all the support and cooperation.
Stay blessed, Stay happy!

Regards,
Ms. Dhanalaxmi

wow moments!

The life of a Pre-KG teacher is a vibrant and rewarding journey filled with endless joy, laughter, and learning. Each day brings new adventures as we guide and nurture the youngest minds, laying the foundation for their future education. From creating engaging lesson plans to fostering social and emotional development, a Pre-KG teacher plays a crucial role in shaping a child's early years. With patience, creativity, and a deep passion for early childhood education, these dedications embark on a remarkable path, embracing the unique challenges and joys that come with the privilege of molding young hearts and minds.

It was a magical moment for me as a Pre-KG teacher as I witnessed the sheer enthusiasm and engagement of my children during the concept of "One." Taking them on a virtual tour of Al Qudra farm, I asked them what they saw. To my astonishment, every little voice unanimously chimed in, exclaiming, "1 hen, 1 truck, 1 egg, 1 horse, and so on!" Overwhelmed by this active participation and understanding, I felt a sense of joy and fulfillment, knowing that I had ignited their curiosity and sparked their love for learning at such a young age. It was a wow moment that reminded me of the wonders of teaching and the incredible potential of my young learners.

Thank you children for making my life beautiful with your little acts and gestures!

Ms. Nikhitha

Pre-KG B

WOW! wow moments!

Teaching is not just about enduring good grades, it is about creating an impact and motivation! Motivation to transform, evolve, and grow. While we try to teach our children all about life, our children teach us what life is all about. Children are our most valuable resource.

I'm truly blessed to be in this profession and to help kids realize that anything can be achieved!

When I enter my class, my students come running towards me screaming, "Uma Ma'am good morning! I love you." Each of them give me beautiful drawings such as hearts etc. and even a freehand drawing of a cartoon girl standing near the whiteboard. That's me of course. They even imitated even my physical gestures and explained the session in a similar way that would have been done by me. This shows how observant my tiny tot kids are in the class. At that moment a feeling of happiness floods in and the indicator hand of my barometer changes rapidly! The pressure goes up and my energy level is high again! I think: 'Wow, it's great to be a teacher!'

The wow factor which attracts me is when I see the outcome and productivity. The results are promising and exceed our expectations! These reasons bring me back to school every day and keep me motivated as well.

CLASS ASSEMBLY

Canva

GRADE 1E AND 1F

Affection

There is no power greater than true affection.

The children of Grade 1E and F presented a special assembly together on the topic of AFFECTION.

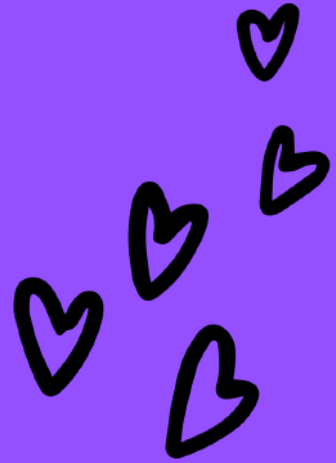

Children spoke about why affection is important and how our world is a better place when we are affectionate towards each other.

They reminded everyone to use the power of love and affection.

CLASS ASSEMBLY

KG 2C & KG 2D

The students of KG 2C and D presented a special assembly on the theme of 'Friendship'. Children performed a skit on friendship and its values. Also, an excellent song was presented by the tiny tots with adorable actions and lyrics which gave a clear message of making good friends for life.

ART FIESTA

Canva

At Credence, we recently celebrated the Festival of Art. Children from various schools in UAE participated and contributed to this significant event.

We encouraged all children to use environmentally friendly materials and practices to create beautiful crafts and artworks.

SINGATHON

PRE-KG

KG 1

KG - 2

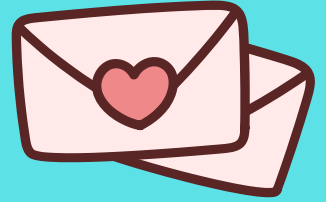

Grade 1

Music is an effective tool for supporting students in learning beyond reading and writing. Music gives students unique opportunities to express themselves creatively and build confidence. Our singathon day was conducted with the same intention and the children enjoyed it a lot.

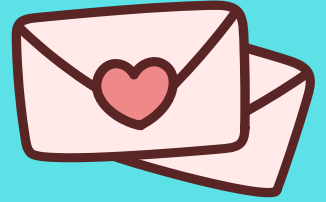

Canva PTM Canva

In our first PTM, the teachers had an opportunity to share their academic progress and growth based on classroom observations, reviews, assessments, portfolios, and assignments. Parents also shared their valuable feedback and informed parents about the student's strengths, needs, behaviours, and learning styles.

FATHERS DAY

On the occasion of Father's Day, our children enthusiastically crafted heartfelt crafts for their fathers, expressing their love and appreciation. Additionally, they went the extra mile by creating a special video to showcase their love and affection.

LITERACY

Pre KG

The children continued their learning journey and learned letters 'g' and 'o'. They eagerly engaged in crafting activities involving these letters.

KG1

Children learned the letters d, g, and o this month. Children made crafts for these letters and modeled letters using playdough.

KG2

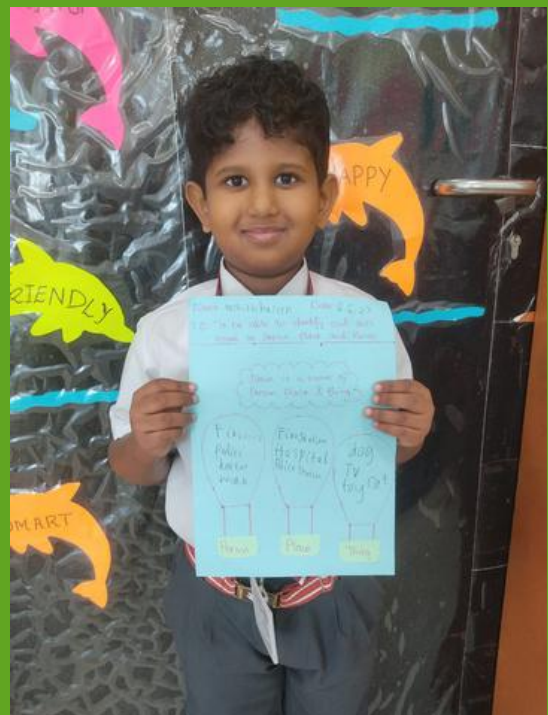

The children enjoyed learning new vocabulary and making simple sentences with the words using proper punctuation.

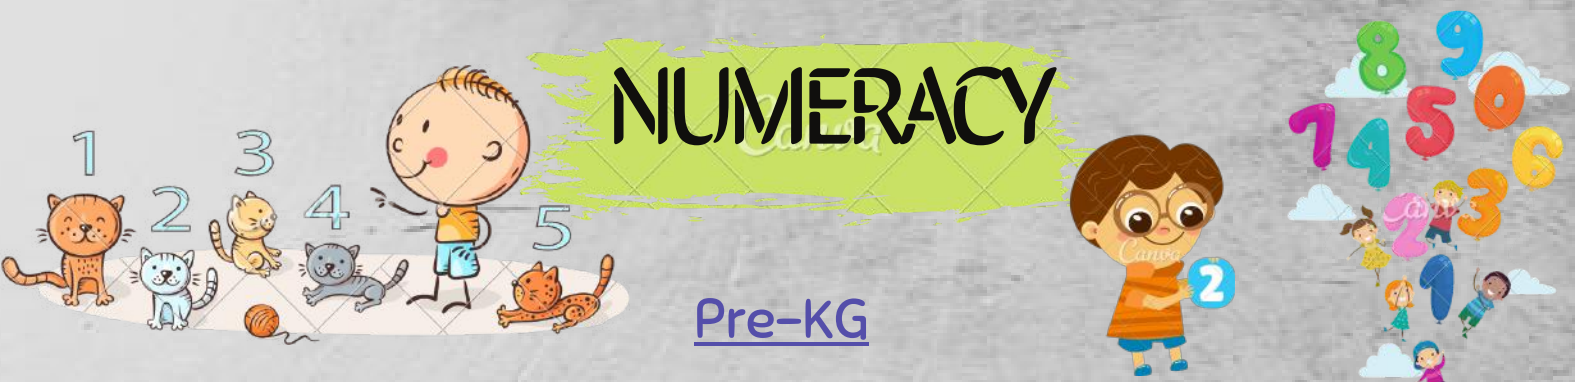

GRADE 1

Children in Grade 1 learned about naming words. (nouns). They were able to sort words and sentences as per person, place or thing.

WHY?

The children had a great time learning about numbers 3 and 4. They enjoyed doing hands-on activities and portfolio tasks to better understand these numbers.

KG1

Children learned to explore before, after, and between numbers with different hands-on activities.

S E V E N

T E N

KG2

The children enjoyed learning number names and place value with different activities.

GRADE 1

Numbers are always so much fun!

Grade 1 children revised the concept of ascending and descending numbers from 1 – 99.

UNDERSTANDING THE WORLD

Pre-KG

The children learned about healthy and unhealthy foods, sorting them appropriately. They also explored emotions and feelings, expanding their understanding of this subject.

KG1

Our little ones learned about community helpers namely doctors, teachers, firefighters and police this month. They learned to sort tools used by them.

KG 2

The children continued their learning journey of internal organs and learned about the stomach with interesting activities and experiments.

GRADE 1

We love animals! Grade 1 children learned about different types of animals- Herbivores, Omnivores and Carnivores. Children researched about animals and their eating habits.

ALL ABOUT THE UAE

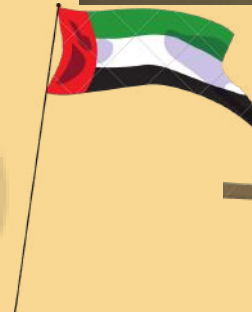

PRE-KG

In the UAE, children learned about the Dallah pot, the national tree, and the national flower, and created crafts based on them.

KG1

Children learned about the National flower, animal, and bird of UAE. They also learned facts and features of the Dallah pot and they made beautiful crafts for it.

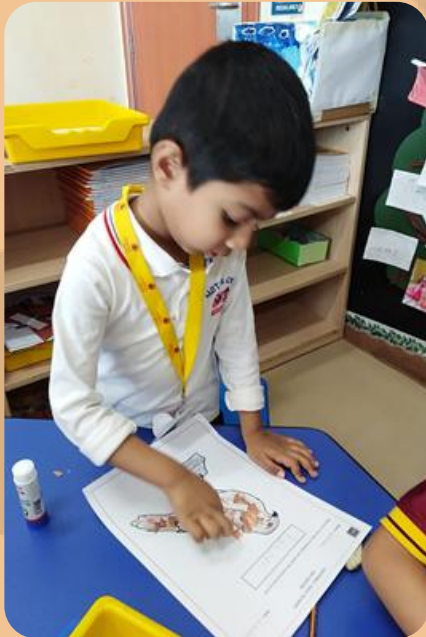

KG2

The children of Kg 2 were enthusiastic to learn about the UAE national symbols and they enjoyed modeling of the National bird of the UAE.

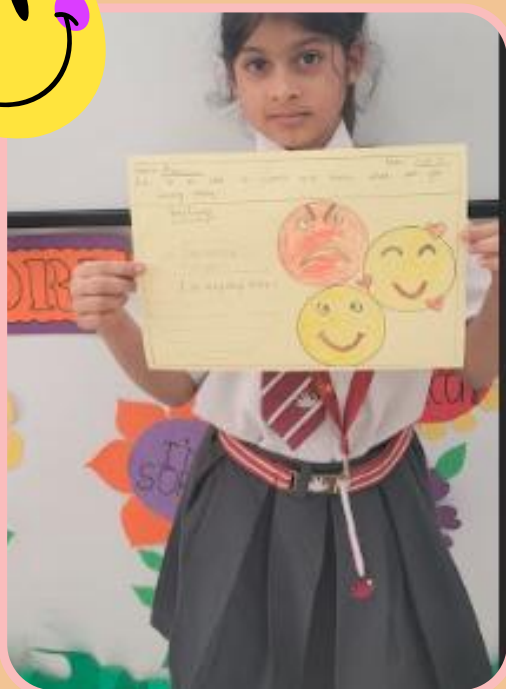

GRADE 1

MSC

Feelings!

We all experience different feelings at different times. Sometimes we feel happy, sometimes we feel sad. Whatever feelings we experience, it's all right to acknowledge them!

EXTENDED LEARNING

In order to encourage enhanced knowledge and learning, extended learning tasks are assigned every week to all the students. It provides various opportunities for children to consolidate, enrich and extend their learning.

Pre KG

KG 1

KG 2

Grade 1

STEM

STEM stands for Science, Technology, Engineering, and Mathematics. STEM activities are based on curiosity, inquiry, and play. STEM for kids develops creators, thinkers, innovators, and inventors. Exposing our children to STEM at an early age sets the foundation for higher learning.

Pre-KG
Building standing lines.

KG1
Building colour code patterns.

KG2
Mask making .

Grade 1
Building a clay and marble run.

TAKEAWAY

The process of creating something naturally gets our children thinking about the final product and the steps they need to take to get there.

Pre KG

'S' for strawberry

KG 1

Gratitude card for parents..

KG 2

Father's Day Wall Hanging.

Creativity is intelligence having fun!

PREKG- Making star and moon.

Kg1- Summer craft

KG2 - Wall hanging.

Grade 1 - Father's Day Card

MUSIC

Music is the divine way to tell beautiful, poetic things to the heart.

PRE-KG

KG1

KG2

Grade 1

DANCE

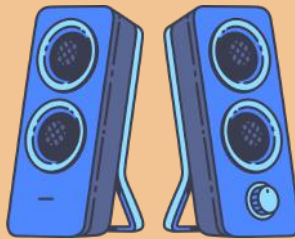

There are shortcuts to happiness and dancing is one of them.

PREKG

KG 1

KG2

Grade 1

LIBRARY

A room without books is like a body without a soul.

SWIMMING

To boost and enhance our young one's skills, swimming is the perfect exercise for them.

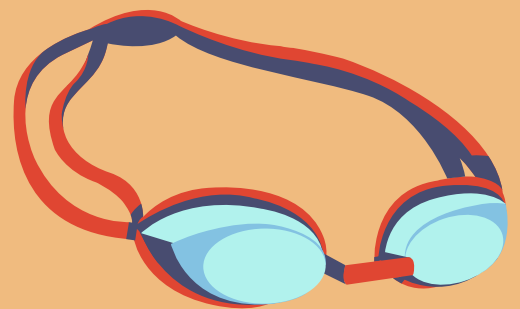

KG1

KG2

Grade 1

P.E.

A healthy body means a healthy mind!

PRE-KG

KG1

KG2

Pre KG
Bubble snake

EXPERIMENT

KG1
Walking water

GRADE 1
How does a leaf breath

KG2
Natural colours

SHOW AND TELL

PRE-KG: Letter 's'.

KG 1-Literacy Booklet

KG2 – Internal organs.

GRADE 1– Types of Animals.

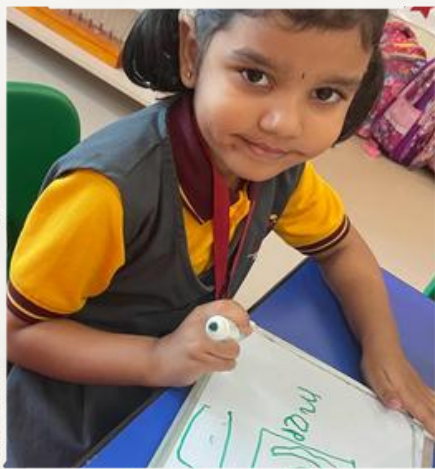

GUIDED READING

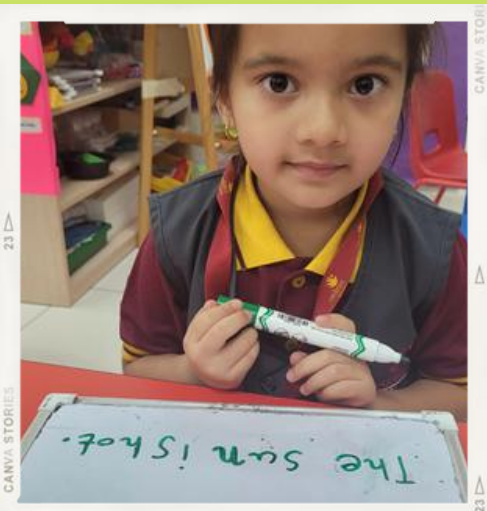

KG1

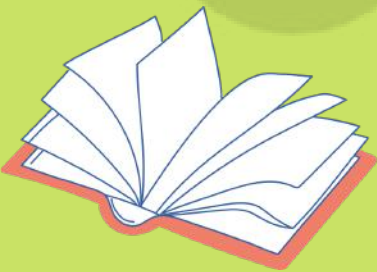

Our little munchkins learned to blend and read CVC words. They tried to build words using bottle caps, letter cards etc.

KG2

In KG 2, the children started reading simple sentences with proper punctuation.

GUIDED READING

GRADE 1

Yaay! We enjoy reading so much. Different letters come together to make different phonic sounds. We learned the phonic sound of 'oo' - short and long. We revised phonic sounds- or, ar, ch, and sh.
